Data Enrichment

5 sources, 40+ features, zero labeling

Where?

- Municipality, district, canton, population density (swissBOUNDARIES3D)

How connected?

- Nearest stop, train station & Hauptbahnhof (SBB API)

What's nearby?

- 12 POI types (OpenStreetMap)

Fair price?

- CHF/m2 vs. municipality, district & canton avg

What's inside?

- 12 features from descriptions (Claude Haiku)

Query understanding

Raw query input

"3-room bright apartment in Zurich under 2800 CHF with balcony, close to public transport, ideally quiet"

Claude (LLM parser)

Structured JSON output prompt

Detects intent, intensity, hedge words, Swiss terms (3.5-Zimmer, ab sofort)

Hard filters

city: **Zurich**
rooms: **3.0 exactly**
max_price: **CHF 2800**
offer_type: **RENT**
Fail any -> listing excluded

Soft filters: intensity-weighted scoring

Key insight: `"must have parking"` scores **6x higher** than `"bright would be nice"` — intensity detected from language, not from explicit settings.

Claude identifies hedge words (ideally, would be nice, if possible) and certainty markers (must, essential, required), mapping them to weight multipliers 0.15 to 1.00.

Soft Signal

Image RAG Service

Rerank candidate listings by visual similarity

"I am looking for …"

{
Listing a : 0.95
Listing b : 0.92
Listing c : 0.85
}

Ranking

1. **Extract Preferences**
   bright, quiet, balcony, public_transport, ...
2. **Assign Weights**
   each signal gets a weight value
3. **Calculate Score**
   weight × match_strength per signal
4. **Apply Quality Bonus**
   for stronger tie-breaking
5. **Boost by Images**
   match query images
6. **Boost by History**
   align with past preferences

Personlization in action

NestFinder | same query | cold vs warm | real demo output

"quiet apartment in Zurich,
must have parking,
balcony would be nice"

COLD

No history | flat weights | generic reasons

#1 Studio Apt — Weinbergstrasse CHF 1900
Zurich | 1.0r | Score: 2.200
quiet | balcony | weights x1.0
Matched soft filters. Flat weights, no personalization.

#2 Neubauwohnung in Zurich CHF 3080
Zurich | 3.5r | Score: 1.660
parking | balcony | weights x1.0
Matched soft filters. No preference signal.

#3 Modernes Wohnen im Guggachpark CHF 3910
Zurich | 4.5r | Score: 1.660
parking | balcony | weights x1.0
Matched soft filters. Flat weights.

#4 v Wohnung an ruhiger und zentraler Lage CHF 2330
Zurich | 3.0r | Score: 0.400
balcony only | no elevator signal
Will drop to #5 in warm — outranked by elevator affinity.

#5 ^ Wohnen im Trendquartier — 3.5 Zimmer CHF 3190
Zurich | 3.5r | Score: 0.400
balcony | elevator in description
Will rise to #4 in warm — elevator matches user affinity.

RANKING DELTA — COLD TO WARM

#1 Studio — Weinbergstrasse was #1 | score +0.145
#2 Neubauwohnung Zurich was #2 | score +0.120
#3 Modernes Wohnen Guggachpark was #3 | score +0.080
#4 ▲ Trendquartier was #5 | elevator boost
#5 ▼ Wohnung ruhiger Lage was #4 | no elevator

WARM

Profile applied | clicks, favorites, price range

#1 Studio Apt — Weinbergstrasse CHF 1900
Zurich | 1.0r | Score: 2.345 (+0.145) | clicked
quiet | balcony | preferred city | price CHF 1910-2073
Personalised: preferred city, price range, previously clicked.

#2 Neubauwohnung in Zurich CHF 3080
Zurich | 3.5r | Score: 1.780 (+0.120)
parking | balcony | preferred city boost
Personalised: preferred city boost applied.

#3 Modernes Wohnen im Guggachpark CHF 3910
Zurich | 4.5r | Score: 1.740 (+0.080)
parking | balcony | preferred city boost
Personalised: preferred city boost applied.

#4 ^ Wohnen im Trendquartier — 3.5 Zimmer CHF 3190
Zurich | 3.5r | Score: 0.520 (+0.120)
balcony | elevator match | preferred city
Rose from #5 — elevator preference in user profile matched.

#5 v Wohnung an ruhiger und zentraler Lage CHF 2330
Zurich | 3.0r | Score: 0.480
balcony | preferred city | no elevator
Dropped from #4 — no elevator signal, outranked by Trendquartier.

USER PROFILE APPLIED

Preferred city: **Zurich**
Price range: **CHF 1910-2073**
